Suggested Doubling of the Fine on Steamship Companies for Bringing in Obvious Undestrables Low Types Set-

Saturday to the Commissioner-General of Immigration, says that in the last fiscal year the deportations from Ellis Island were 14,500, including 1,500 aliens who after landing had been found to have been here in violation of law. He says that in some months "the exclusions were 3 per cent. of the arrivals and such a percentage indicates carelessness on the part of steamship agents abroad in ac-

cepting immigrants as passengers." The Commissioner regrets that the acommodations for the detained and the debarred are inadequate and recommends the erection on the dormitory building at an expense of about \$375,000 of a new story with out of door porches or verandas for each floor on the northerly side.

He says a good word for his staff, particularly of those serving on special boards of inquiry that decide who shall or shall not land among the detained.

Our attention is from time to time called to the number of feeble minded alien chilmany of whom have passed through Ellis sland. One reason why they are not excluded is, as pointed out in my last annual report, lack of time and facilities for thorough examination as to mental con dition. Another is that while idiocy and imbecility can usually be recognized, even will enable the Government to determine whether or not they are feeble minded, and since no such inquiry is now made the law as to the exclusion of young feeble minded children is virtually a dead letter and the Ellis Island authorities have not the means at their command to vitalize it station after he had pretended to try to commit suicide by swallowing a harmless

WANTS FLAG UP EVERY DAY Patriotic Societies of Paterson Get After the City Officials.

PATERSON, N J., Nov. 12.-The city officials of Paterson and the members of the three councils of the Junior Order of American Mechanics, numbering about 2,000, are at loggerheads over the question whether the national flag shall be raised every day on the City Hall. A committee representing the order made the request to the Board of Public Works that the flag be displayed each day and offered to supply the flag and see that it was kept in good condition. The board unanimously turned down the proposition on the ground that it would leave no special designation for holidays if the flag were allowed to fly every day.

or shall not land among the detained.

"The magnitude and difficulty of the work of these boards," the Commissioner writes, nation was expressed at the action of the Bard of Public Works and it was determined to fight the matter. It was contended by the committeemen that just last year they decided 70 \$20 cases, repfault with the decisions in isolated cases. Last year they decided 70,820 cases, rendering admitting decisions in a great majority of them but excluding from admission a great deal of the riff raff and soum which is constantly seeking to enter. To form an intelligent opinion of their work it must be considered as a whole and when so considered it will be found to compare favorably with that of other similar bodies, whether executive tended by the committeemen that just as patriotism is instilled into the children at school and is thus carried into the home, so the public buildings be stamped with some sign of Americanism, the best of which is the American flag. It was argued that this would imbue patriotic deas into the local foreign speaking people. The members of the Junior Order also pointed out that many of the flarge cities have adopted the plan of flying the flag from the City Hall every day.

found to compare favorably with that of other similar bodies, whether executive or judicial."

On the subject of the enforcement of the law in regard to feeble minded immigrants the Commissioner says in part:

I am of the opinion that means should be found to give full effect to this excellent provision of law, which may be made to mean so much to the welfare of our country. Our attention is from time to time called
